

AI Smart Tracking Rotary Platform

360° Rotation

Body Tracking

Long Standby Time

Easy to Operate

No APP Needed

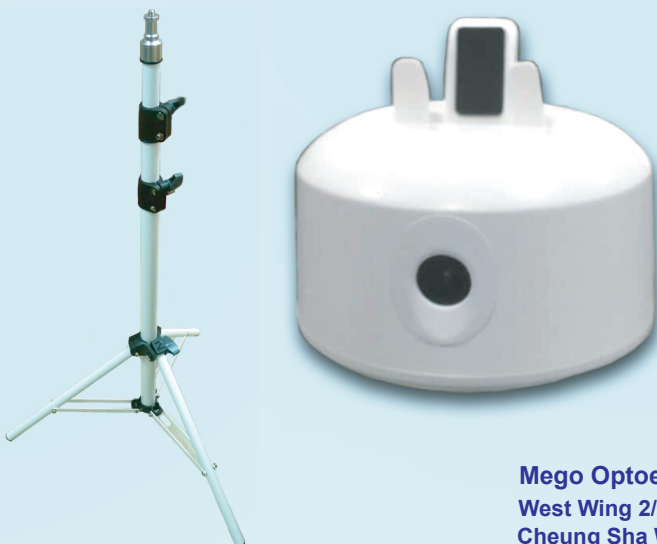

This Smart Rotary Platform is an indispensable tool for doing live online video lectures or preparing online videos for remote education during lock-down.

This unit is designed so it is very easy to setup with most Smartphones or small tablets. It automatically rotates to follow the teacher/ presenter. This allows the teacher to move around the room freely. Likewise, in Zoom meetings, the tracking capability of this Rotary Platform will allow you to move freely from the confines of your desk.

Model: MK10 Product Specification
